

Low VOC

AccuShade LV

GO GREEN WITH LOW VOC SOLVENT

Matrix System's new 3.5 VOC Solvent Basecoat System (MSB-LV) is modeled after our Matrix Standard Basecoat System (MSB). MSB-LV is an industry first low VOC solvent system engineered as an alternative to waterborne basecoats for those looking for a high performance "eco-friendly" paint system. MSB-LV offers you the exceptional color match & application of a traditional solvent basecoat at a new low VOC.

Features

- No sacrifice in quality
- Thousands of colors
- Exceptional color match
- Uses eco-friendly solvents
- No new application techniques
- Uses the same toners and formulas

**LOW
EMISSION**
