

## Custom Colors

### FX Series

These awesome colors in the Matrix System FX Series provide outstanding clarity and sparkle, ranging from subtle to intense. FX Series high performance finishes are available at Matrix System Jobbers across the country, or they can be mixed right off the AccuShade Intermix System.

#### **Metallic FX:**

The Metallic FX Series provides eye-catching shimmering flickers of metallic and fine metallic basecoats. Easy to use and fast to cover, these bases will quickly lay down flat to create just the effect you're looking for.

**Compare to:** House of Kolor® Shimrin® Universal Bases: BC - Glamour Metallics, FBC - Fine Metallics, PBC - Designer and Black Pearls

#### **Vibrant FX:**

The Vibrant FX Series produces deep, dramatic color with rich tones when directly clearcoated or used as a base of FX Candy or pearl finishes - the perfect basecoat for custom work.

**Compare to:** House of Kolor® SG - Graphic Kolors

#### **Brilliant FX:**

Brilliant FX products can be added to any basecoat or tricoat formula to easily create that one-of-a-kind look that sets your next project apart from all the rest.

**Compare to:** PPG® Flamboyance®

#### **2002 Harley Davidson Ultra Classic Painter: Josh Bourassa**

"Matrix System paint has provided me with great versatility in product; particularly regarding the level of custom paint that I do. The FX Series system is outstanding, very easy to use, and I can trust it to last. I get the same quality product as other leading paint systems with reduced cost to help my bottom line."
