AUTOMOTIVE FINISHES

Candy FX:

Create a sweet finish of deep liquid pools of color for your finest custom project with FX Candy clearcoats, midcoat clears and dyes to intensify any candy color. Reds so red, they radiate heat and blues that rival glacial ice. Let your imagination grow and your custom finishes glow with the outrageous FX Series Candies.

Compare to: House of Kolor® KKC - Kandy Koncentrate®, UK - Kosmic Kandys®, KBC - Kandy Basecoats

Mystical FX:

Mystical FX produces dramatic color shifting pigments to create shifts from blue to emerald green, copper red to forest green, copper to violet to green, and more to provide an array of colors when viewed at different angles. Use different basecoats to produce deep, rich, clean colors with significant color shifts.

Compare to: House of Kolor® KPF - Kameleon® Pearls

Mysterious FX:

Mysterious FX products are packaged in a liquid form that may be added to basecoats or midcoats to provide dramatic color shift effects such as silver to green and magenta to gold, depending on the angle from which they're viewed.
