

## Single Stage

### Technical Information:

Mix Ratio: 4:1  
 VOC: 2.8 lbs/gal  
 Pot Life: 4 hours @ 75° F  
 Application: Conventional/Airless  
 Dry Time: 16-24 hours  
 Film Build: 2.5 mils dry; 4.8 mils wet

### MSU Series Factory Packaged Colors

MSU high solids, high gloss, low VOC polyurethane coatings are intended for use as a high performance protective maintenance coating for automotive applications and surfaces exposed to humidity, chemicals, and corrosive elements.

### Color Availability

Our polyurethane system may be applied direct to metal and provides excellent exposure protection to severe industrial, commercial and marine environments to maintain its exceptional gloss and color retention in the harshest exposures.
