

Matrix System has developed a color match system that's fast, accurate, and designed to be extremely user friendly. The AccuShade® color match system consists of four main components: AccuShade® Intermix toners, AccuShade® formula retrieval system, AccuShade® Color Variant Selector (New for 2011) and Matrix System domestic and import color books. Together, these tools provide the ability to achieve fast, accurate color matches.

The AccuShade® Formula Retrieval System Includes:

- Over 103,000 formulas, including thousands of variants
- Easy to use Windows® based software
- Online accessibility to the latest formula updates
- Updated inventory and VOC tracking modules
- Easy-to-access MSDS and technical data information
- Regular updates & free technical support

A Perfect Match is a Beautiful Thing.
