# QF-203 Guide Coat Black

Guide Coat Black is designed to highlight the imperfections found in most primer sealers and body fillers and serves as a guide for creating a smooth surface. This product offers quick drying and non-clogging properties.

**COMPARABLE TO: Dupli-color® DPS102**

## Features

- Quick drying
- Ideal for surface preparation
- Provides a smooth surface
- Non-clogging
- Convenient packaging

## Application

Shake can for 1 minute after agitator ball rattles. Apply even mist coat to desired repair areas and allow to dry. Completely sand area as required, using Guide Coat to determine if any scratches or low areas remain in primed repair. Turn can upside down and spray until clear gas is emitted to clear spray tip.
