MATRIX[®] SYSTEM AUTOMOTIVE FINISHES

A Subsidiary of Quest Specialty Chemical™

Paint Mixing Equipment

ALLIANCE 2.4M MIXING SYSTEM

ADDITIONAL ACCESSORIES

New pearl header conveniently holds up to 29 pearls

Only 5 moving parts per unit with a non-stretch steel reinforced belt

Tube Construction:
Patented twist and lock system

Direct Drive: Gear - Reduced drive system eliminates motor belts / motor pulleys

Standard Blending Table

- Easy to assemble
- Adjustable bottom shelf
- Galvanized shelves for easy clean-up

Cyclone Air Shaker & Pedestal

- Mixes paint, primer, and fillers in minutes
- Durable housing, jaws and handle
- Optional pedestal

Wall Cabinet

- No assembly required
- Protects and stores equipment
- 2 adjustable galvanized shelves

Alliance ClicSeal Lids

- Gallon and Quart lids
- Fast assembly and disassembly from can
- Best seal available

Alliance Platform

- Magnetic attachment for easy positioning
- Allows a quart can to mix on a gallon shelf

Mettler Exp. Scale

- Reads to nearest tenth of a gram
- Up to 7.1 kg weighing capacity

Mixing Lid Benefits

- **Quick Assembly:** Fastest assembly with a revolutionary clip design. No more lock levers!
- **Strongest Lock:** Provides 4 "hold" points that are 10 times stronger than other lids.
- **Best Seal on the Market:** Drastically reduces solvent and water evaporation with fewer openings in the lid.
- **Fast & Accurate Pouring:** Designed with a precision pour spout and closure blade. Improved venting allows for greater efficiency with volume paint matching.

Machine Benefits

- **Quick Assembly:** No tools required! Machine assembles in 15 minutes.
- **Easy Maintenance:** No disassembly required to change a motor or a belt.
- **Quiet Operation:** This is the result of the direct drive system and fewer moving parts.
- **Modular:** Easily adaptable by simply adding or removing shelves at any time.
- **Compact Design:** Unit carton size is only 4" in height. Cost effective for both shipping and warehousing.
