BP-12 Premium Gold Filler
BP-16 Polyester Finishing Putty
BP-82 Lightweight Grip Body Filler

BP-12 BodyPrep™ Premium Gold Filler

Matrix Premium Gold Filler is a body-leveling compound designed to fill and final finish in one easy application. It can be used as a body filler sandable with 40-120 grit abrasive, or as a glazing putty sanded with 120-240 grit. Premium body filler is a stain-free, tack-free product with excellent adhesion to steel, galvanized metal and aluminum. Cream hardener included. Size: 1 gallon. **COMPARABLE TO: 112 EVERCOAT® RAGE® GOLD**

BP-16 BodyPrep™ Polyester Finishing Putty

A premium polyester finishing putty, it can be spread over a much larger area than conventional glazing putties and allows imperfections to be filled without altering the appearance. Use over sanded topcoats or primers, or on regular and galvanized steel. Cream hardener included. Size: 30 fl oz. **COMPARABLE TO: 416 EVERCOAT® METAL GLAZE®**

BP-82 BodyPrep™ Lightweight Grip Body Filler

Matrix Lightweight Grip Body Filler is formulated to offer adhesion to bare metal, SMC, fiberglass, galvanized metal and zinc-treated steel. It's easy to sand and is stain resistant. Cream hardener included. Size: 1 gallon. **COMPARABLE TO: 282 EVERCOAT® Z-GRIP®**
