

BP-82

## MATERIAL SAFETY DATA SHEET

**PRODUCT NAME: BODY PREP LIGHTWEIGHT GRIP FILLER**

**PRODUCT CODE: BP-82**

**HMIS CODE: H = 2 F = 3 R = 2 P = G**

**WHIMS CLASSIFICATION: B2, D2A, D2B**

### SECTION I - MANUFACTURER IDENTIFICATION

**Distributed by:** Matrix System Automotive  
Finishes, LLC

**Address:** A Subsidiary of Quest  
Specialty Chemicals, LLC  
850 Ladd Road, Bldg. E  
Walled Lake, MI 48390

**Emergency Telephone:** (800) 424-9300  
(CHEMTREC)

**Information Telephone:** (800) 735-0303  
(248) 668-8135

**MSDS Preparer:** MSDS Coordinator

**MSDS Preparation Date:** January 19, 2009

**MSDS Revision:** 0 (zero)

### SECTION II - HAZARDOUS INGREDIENTS

| <u>Hazardous Ingredient</u>  | <u>CAS Number</u> | <u>Vapor Pressure @ 20°C</u> | <u>% by Weight</u> |
|--|-------------------|------------------------------|--------------------|
| Polyester Resin<br>ACGIH TLV-TWA N/A<br>ACGIH TVL-STEL N/A<br>OSHA PEL-TWA N/A<br>OSHA PEL-C N/A<br>LC <sub>50</sub> (TVL) N/A<br>LD <sub>50</sub> (ORAL) N/A<br>LC <sub>50</sub> (DERMAL) N/A | Trade Secret      | N/A                          | 25 - 35            |

## MATERIAL SAFETY DATA SHEET

| <u>Hazardous Ingredient</u>   | <u>CAS Number</u> | <u>Vapor Pressure</u><br><u>@ 20°C</u> | <u>% by Weight</u> |
|---|-------------------|--|--------------------|
| Talc<br>ACGIH TLV-TWA 2mg/m <sup>3</sup><br>ACGIH TVL-STEL N/A<br>OSHA PEL-TWA 100 mppcf<br>OSHA PEL-N/A<br>LC <sub>50</sub> (TVL) N/A<br>LD <sub>50</sub> (ORAL) N/A<br>LC <sub>50</sub> (DERMAL) N/A                              | 14807-96-6        | N/A                                    | 25 - 30            |

## MATERIAL SAFETY DATA SHEET

---

### SECTION III - PHYSICAL DATA

---

|                          |  |                                    |                             |
|--------------------------|--|------------------------------------|-----------------------------|
| <b>Boiling Point:</b>    | 145° C (293° F) (Styrene)              | <b>Specific Gravity:</b>           | 1.21                        |
| <b>Melting Point:</b>    | N/A                                    | <b>Solubility in Water:</b>        | Negligible                  |
| <b>Evaporation Rate:</b> | Slower than ethyl ether                | <b>Volatile Organic Compounds:</b> | 199 g./l.<br>1.66 lbs./gal. |
| <b>Vapor Density:</b>    | Heavier than air                       |                                    |                             |
| <b>Appearance:</b>       | Green paste with a sharp aromatic odor |                                    |                             |

---

### SECTION IV - FIRE AND EXPLOSION DATA

---

|   |  |                     |                       |
|---|--|---------------------|-----------------------|
| <b>Flash Point:</b>                         | 37.5° C (99.5° F)                      | <b>Method used:</b> | Seta Flash closed cup |
| <b>Lower Flammable Limit (% by volume):</b> | 1.1                                    |                     |                       |
| <b>Upper Flammable Limit (% by volume):</b> | 6.1                                    |                     |                       |
| <b>Extinguishing Method:</b>                | Carbon dioxide, Foam and Dry Chemical. |                     |                       |

**Special Firefighting procedures:** Flammable. **Conditions to avoid:** ignition sources, excessive heat, open flame and sparks. Full protective equipment including self-contained breathing apparatus should be used. Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers to prevent pressure build-up and possible auto-ignition or explosion when exposed to extreme heat.

**Unusual Fire and Explosion Hazards:** Containers may explode when exposed to extreme heat. Vapors are heavier than air and collect in low-lying areas. Vapors can travel to a source of ignition and flash back causing explosion and/or fire. At elevated temperatures, such as may occur during a fire, rapid polymerization may take place. If this occurs in a closed container, the container may explode.

## MATERIAL SAFETY DATA SHEET

---

### SECTION V - STABILITY AND REACTIVITY

---

**Chemical Stability:** Normally unstable. Styrene polymerizes slowly and oxidizes on exposure to air and light. At elevated temperatures, such as may occur during a fire, rapid polymerization may take place. If this occurs in a closed container, the container may explode.

**Incompatible Substances:** Strong oxidizing agents such as nitric acid, strong acids, metal hydrides, iron chlorides.

**Reactivity:** High temperatures may cause hazardous polymerization.

**Hazardous decomposition:** By fire: Carbon monoxide and carbon dioxide and irritating gases.

**Hazardous Polymerization:** Will occur.

---

### SECTION VI - TOXICOLOGICAL AND HEALTH HAZARD DATA

---

**Route of Entry:** Skin contact, skin absorption, eye contact, inhalation and ingestion.

**To minimize exposure, follow recommendations for proper use, as well as ventilation, and personal protective equipment (PPE) in SECTION VII.**

**Signs of Overexposure:** Headache, dizziness, nausea and loss of coordination are indications of excessive exposure to vapors or spray mists. Redness and itching or burning sensation may indicate eye or excessive skin exposure.

**Effects of Overexposure:** If inhaled may cause irritation of eyes, skin, nose and throat. Higher concentrations of vapor may cause headache, nausea, fatigue, dizziness and/or loss of balance. May cause central nervous system depression. Prolonged or frequent skin contact may cause defatting and dryness of the skin and dermatitis. May irritate eyes, scratching of the cornea is possible from solids in the material. Ingestion may cause gastrointestinal disturbances, pain, nausea and discomfort.

**Medical Conditions Aggravated by Exposure:** No medical conditions are generally recognized as being aggravated by exposure.

**Carcinogenicity:** Possible carcinogenic (per IARC -[styrene])

**Mutagenicity:** Non-mutagenic

**Teratogenicity:** Non-teratogenic

**Sensitization:** Non-sensitizing

## MATERIAL SAFETY DATA SHEET

---

### SECTION VII - PRECAUTIONS AND PREVENTATIVE MEASURES

---

**Personal Protective Equipment:** If personal exposure cannot be controlled below applicable limits by ventilation, wear a chemical cartridge-type respirator with organic vapor cartridges for protection against materials in SECTION II. Use an air-supplied mask for concentrations above 2% or unknown levels. Wear chemical resistant gloves. Wear safety glasses or safety goggles with un-perforated side shields. When sanding or abrading the dried film, wear NIOSH/MSHA approved mask.

**Other Precautions:** Intentional misuse by deliberately concentrating and inhaling vapors can be harmful or fatal.

**Engineering Controls:** Use only with adequate ventilation. Avoid contact with skin and eyes. Avoid breathing vapor and spray mist. Wash hands after using. Keep away from heat, sparks or flame. Vapors will accumulate readily and may ignite explosively. During use and until all vapors are gone; keep area ventilated - do not smoke - extinguish all flames, pilot lights and heaters - turn off stoves, electric tools and appliances and any other source of ignition.

**Leak and Spill Procedures:** Remove all sources of ignition. Use PPE. Ventilate the area. Do not use combustible materials such as sawdust as an absorbent. Remove with inert absorbent material. Wash area with an aqueous solution of trisodium phosphate. Prevent material from entering water systems or sanitary sewers.

**Waste Disposal:** Do not incinerate. Dispose of in accordance with federal, state and local regulations.

**Special Shipping Instructions:** Under the TDG Clear Language Regulations Section 1.17 - this product meets the Limited Quantity exemption. Please refer to these regulations if shipping under this exemption.

**California Proposition 65:** This product contains the following chemical(s) known to the state of California to cause cancer: **STYRENE OXIDE**. Styrene in the presence of air and high temperature or prolonged exposure of styrene/air mixture to sunlight, can react to form styrene oxide.

This product contains the following chemical(s) known to the state of California to cause birth defects or reproductive harm: **NONE**.

## MATERIAL SAFETY DATA SHEET

---

### SECTION VIII - FIRST AID TREATMENT

---

**Eye Contact:** Flush eyes with a gentle stream of water for at least 15 minutes. Get medical attention.

**Skin Contact:** Wash with soap and water.

**Inhalation:** Remove from exposure, restore breathing. Get medical attention.

**Aspiration/Ingestion:** Do not induce vomiting. Give 1 - 2 glasses of water to dilute material in the stomach if the victim is conscious. Get medical attention immediately.

**Note:** In all cases see a physician if any problems persist.

### SECTION IX - DISCLAIMER

---

The information contained in this material safety data sheet is information from our suppliers and other sources. The data in this material safety data sheet relates only to the specific material designated herein and does not relate to use in combination with another material or in any process. This data is not to be taken as a warranty or representation for which this company assumes legal responsibility.
